Ranga G.T : The TOT (Training of trainers) program conducted by FORUM International Center on ‘Office Administration’ was an eye opener. In three days the trainers motivated and inspired the participants through activity based interactive sessions which were most interesting and informative.

The training provided a ‘new found confidence’ to handle sessions with the style and substance provided by the trainers

Hats off to Jutta Overmann for her informal conducting style

Sowmya : The energy and enthusiasm is something I am going to remember forever about this ‘Office administration’ training.

Janet : Greetings from Unnati Team

I am very grateful for the training offered by FORUM International and the trainers. I had an opportunity to gain more knowledge on the subject (office administration) which I can apply in my day to day office work. The group activities & models were very interesting. I gained confidence to handle session individually. The trainers and the environment was excellent.
